REGULAR MEMBERSHIP APPLICATION

The Outdoor Power Equipment represents manufactures of small engines, golf cars, utility vehicles, and outdoor power equipment of all power sources – battery, diesel, electric, gasoline, hybrid, propane, and solar – as well as manufacturers of component parts and providers of related services to the industry.

The undersigned hereby makes application for membership in the Outdoor Power Equipment Institute, Inc., with the understanding that this membership will remain in force to the end of the fiscal year for which dues have been paid or committed in accordance with the bylaws of the Institute when membership may be formally terminated in writing.

COMPANY NAME: _____

CRITERION FOR REGULAR MEMBERSHIP

Any individual, firm, corporation, or subsidiary or division thereof, engaged in the manufacture, fabrication, or assembly of outdoor power equipment (of any power source – battery, diesel, electric, gasoline, hybrid, propane, and solar) or engines utilized in outdoor power equipment, or any firm engaged in the distribution or sale (at the primary level of the manufacturer) of outdoor power equipment not limited to the following list of products on page 2.

Regular members have the option of participating in the OPEI shipments program. However, the member must either participate in all categories that exist for products the company and its affiliates produce or sell in the U.S., or participate in none and receive no shipments data.

Acceptance for regular membership is contingent upon submission of sales data to the outside accounting firm Gelman, Rosenberg & Freedman using the form beginning on page 4. The firm will calculate annual dues based on those reported sales. Upon approval by the Board of Directors, a one-time membership application fee of $250 and the pro-rated annual dues become payable. The annual dues year runs from Sept. 1 to Aug. 31.

The reduced member rates for exhibit space at GIE+EXPO will apply to all organizations that are OPEI members by October 1 of the year preceding the show.
